5. Comparing Two ChatGPT Marketing Strategies

Factor	General Startup Plan	BookMyShow-Style College Plan
Target Audience	Broad audience	College students
Content	General advertisements	Reels, memes, campus content and student offers
Promotion	Google Ads, email, social media	Instagram, campus influencers, WhatsApp and student communities

Which Is Better?

The **BookMyShow-style college student plan** is more suitable because it has a clearly defined audience and uses platforms and content that college students commonly engage with.

Key Lesson: A specific AI prompt produces a more focused and practical marketing strategy than a general prompt.
