Customer Persona and Funnel

1. Customer Persona – Zomato

Persona Name: Riya Shah
Age: 21 years
Location: Ahmedabad, Gujarat
Occupation: College Student
Interests: Food, Instagram Reels, movies, shopping, cafés, and discounts
Digital Habits: Uses Instagram and WhatsApp daily, watches food videos, searches Google for restaurants, and frequently uses mobile apps for food ordering.

Main Need: Affordable food with quick delivery and attractive offers.

---

2. Swiggy Customer Journey Funnel

Discover → Explore → Consider → Order → Repeat

Stage	User Activity
Discover	Sees a Swiggy Instagram ad or searches for food delivery on Google.
Explore	Downloads the app and browses restaurants and menus.
Consider	Compares prices, ratings, delivery time, and offers.
First Order	Selects food, applies a coupon, and completes payment.
Repeat	Receives personalized offers and orders again.

---

3. Three AI-Generated Customer Personas – Music App

Persona 1 – The Playlist Explorer

Age: 19 | **Location:** Ahmedabad | **Interest:** Bollywood and Punjabi music
Habit: Discovers songs through Instagram Reels and shares playlists with friends.
Need: Personalized recommendations.

Persona 2 – The Study Listener

Age: 21 | **Location:** Mumbai | **Interest:** Lo-fi, instrumental, and focus music
Habit: Listens while studying and prefers long playlists.
Need: Distraction-free study playlists.

Persona 3 – The Trend Hunter

Age: 20 | **Location:** Bengaluru | **Interest:** K-pop, hip-hop, and trending music
Habit: Follows artists on social media and searches for newly released songs.
Need: Early access to trending music.

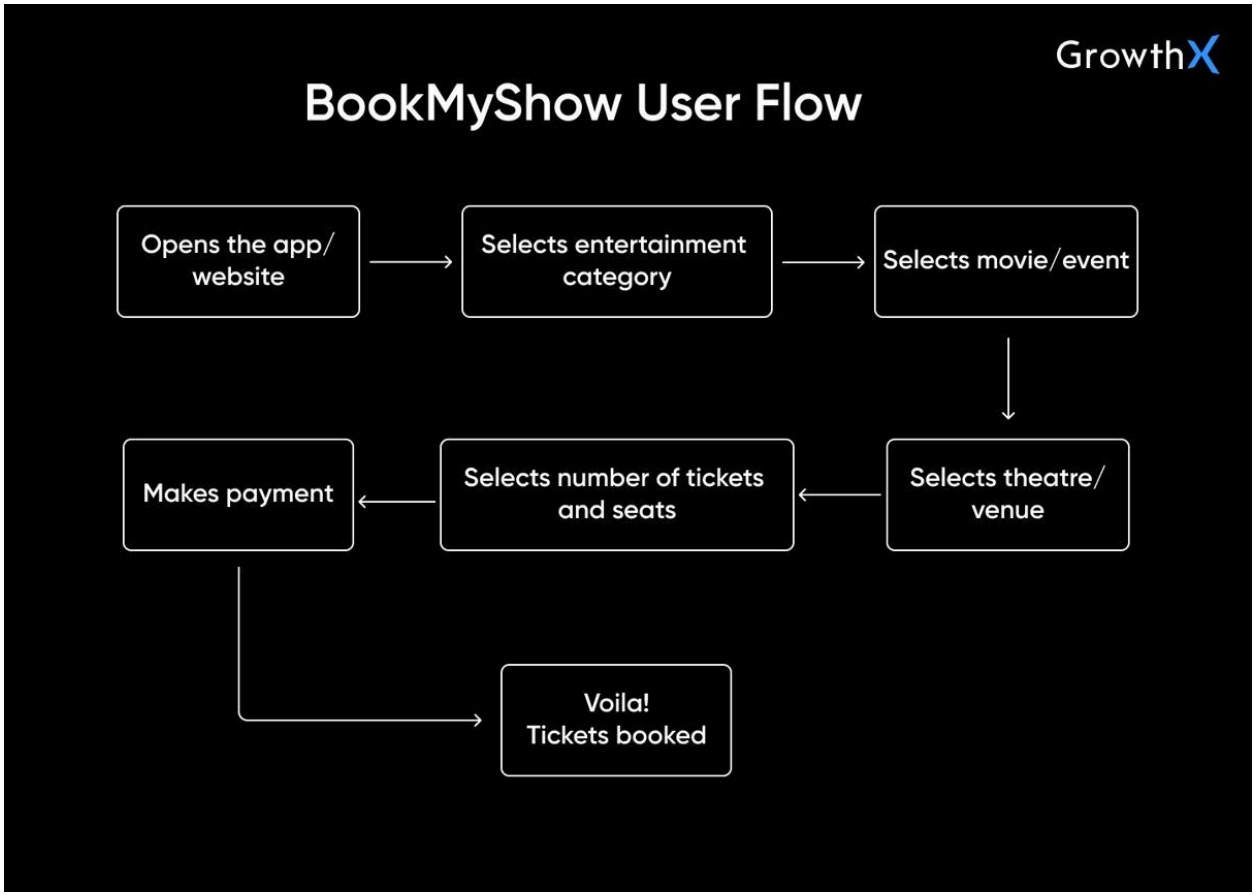

Interesting Insight

The most interesting insight is that **different students use music for completely different purposes—entertainment, concentration, or discovering trends—so personalization can make the app more engaging.**

---

4. BookMyShow-Style Marketing Funnel

GrowthX
BookMyShow User Flow
Opens the app/ website
Selects entertainment category
Selects movie/event
Selects theatre/ venue
