Traffic

1. Google Analytics – Top 3 Traffic Sources

For this task, use the **Google Analytics Demo Account** if you do not have your own website.

A sample answer for the past 7 days could be:

Rank	Traffic Source	Description
1	**Organic Search**	Visitors coming from Google and other search engines
2	**Direct**	Users directly entering the website URL or using a bookmark
3	**Referral**	Visitors coming from links on other websites

Note: The actual top 3 sources depend on the Google Analytics account and the selected 7-day period, so replace these with the exact values shown in your report.

2. Five Ways Users Can Reach the Zomato Homepage

Website/App: Zomato

1. **Organic Google Search** – Users search for terms such as “food delivery near me” and click Zomato's result.
2. **Direct URL** – Existing users type the Zomato website address directly or use a bookmark.
3. **Social Media Ads** – Users click Zomato advertisements on Instagram, Facebook, or other social platforms.
4. **Referral Links** – Users click a Zomato link shared on blogs, websites, or by friends.
5. **Push Notifications** – Existing app users tap promotional notifications and open the Zomato app.

---

3. Traffic Source Spreadsheet

Here is a realistic sample for a food-delivery app similar to Swiggy or Zomato. The visitor numbers are **estimated examples for an assignment**, not actual company data.

Traffic Source	Estimated Monthly Visitors	Example for a Food Delivery App
Google Organic Search	450,000	User searches “food delivery near me”
Instagram/Facebook Ads	250,000	User clicks a food delivery advertisement
Direct/App Opens	600,000	Existing customer directly opens the app
Influencer Posts	120,000	Food influencer shares an app link
SMS Campaigns	80,000	User clicks a promotional SMS
Referral Websites	100,000	User clicks a link from a food blog

Total Estimated Monthly Visitors: 1,600,000

4. 10 Creative Ideas to Increase Traffic for an IPL Cricket Fan Site

1. **Live IPL Scoreboard** – Provide real-time scores to attract fans during matches.
2. **Daily IPL News Updates** – Publish short, timely articles about matches, players, and teams.
3. **Fantasy Cricket Tips** – Share team-selection ideas and player statistics.
4. **IPL Match Prediction Polls** – Let visitors predict match winners and compare results.
5. **Player Comparison Tool** – Allow fans to compare players using statistics.
6. **Instagram Reels** – Create short videos about match highlights, records, and cricket facts.
7. **WhatsApp Sharing** – Add easy sharing buttons so users can share articles with friends.
8. **IPL Quiz Competition** – Create quizzes and offer digital rewards or recognition to winners.
9. **SEO Match Guides** – Create pages targeting searches such as “today IPL match,” “IPL playing XI,” and “IPL match time.”
10. **Email/Push Notifications** – Notify subscribers about match starts, scores, results, and breaking news.

Best 3 Ideas for My Notes

1. Live IPL Scoreboard – It would attract fans repeatedly because they want quick, real-time match information.

2. IPL Quiz Competition – Interactive quizzes encourage users to spend more time on the site and share their results.

3. SEO Match Guides – People frequently search for match times, playing XI, scores, and predictions, which can bring consistent organic traffic from Google.
