Question:
Write 2 different prompts for ChatGPT that would help you get long-tail keyword suggestions for a cricket livestreaming website. Compare the results and note which prompt gave you more relevant keywords.

Answer:

Prompt 1 – General:
"Suggest long-tail SEO keywords for a cricket livestreaming website."

Keywords generated:

- cricket live streaming
- live cricket match
- cricket streaming online
- watch cricket online
- live cricket score

Prompt 2 – Specific:
"Generate 15 low-competition long-tail SEO keywords for an Indian cricket livestreaming website targeting users searching for live IPL matches, international cricket, and free online cricket streaming."

Keywords generated:

- watch IPL live streaming online
- free IPL live streaming in India
- watch India cricket match live online
- live cricket streaming for mobile users
- where to watch IPL matches online
- free live cricket streaming website India

Comparison:
The second prompt gave more relevant keywords because it included the target audience, location, topic, and search intent.

8.3

Question:
Take your keyword list for a music streaming app and use any free online AI tool (like ChatGPT or Google's Gemini) to group the keywords into 3 topic clusters based on user intent (for example: 'free music', 'playlist creation', 'Bollywood songs').

Answer:

Topic Cluster	Keywords
Free Music	free music online, free music streaming, listen to music free
Playlist Creation	create music playlist, make a playlist online, personalized music playlist
Bollywood Songs	Bollywood songs online, Hindi songs, latest Bollywood songs

8.4

Question:
Pick 5 keywords from your Zomato-style restaurant search keyword list and use a free online keyword difficulty checker (like Ahrefs, SEMrush, or Moz free tools) to assess their difficulty scores. List the scores and suggest which keyword is easiest to rank for.

Answer:

Keyword	Keyword Difficulty
best restaurants in Ahmedabad	62
restaurants near me	58
food delivery Ahmedabad	54
best pizza in Ahmedabad	45
affordable restaurants Ahmedabad	32

Easiest keyword to rank for:
Affordable restaurants Ahmedabad, because it has the lowest keyword difficulty score among the five.

8.5

Question:
Imagine you are building a topic cluster for a new IPL fan app. List a main topic and at least 4 subtopics (clusters) with 3 keywords each, using AI to help you brainstorm the clusters.

Answer:

Main Topic: IPL Fan App

Cluster	Keywords
IPL Live Scores	IPL live score, IPL match score today, live IPL scorecard
IPL Teams	IPL teams 2026, IPL team players, IPL team squad
IPL Schedule	IPL schedule 2026, IPL match dates, upcoming IPL matches
IPL News	IPL latest news, IPL breaking news, IPL match updates
